TECHNICAL SKILLS

Languages/Databases: Python (Proficient), SQL, MySQL

Libraries & Frameworks: NumPy, Pandas, Scikit-learn, Matplotlib, PyTorch, OpenCV

Tools/Cloud: MS Excel, Google Cloud Platform (GCP), AWS, Microsoft Fabric, Linux, Power BI, Tableau, Qlik Sense, Git, GitHub, Fast APIs

EXPERIENCE

Conversational Data Analysis Intern

VOIS (Vodafone Idea Ltd.)

Sep 2025 – Oct 2025

Remote

- Implemented **LLM-driven data analytics pipelines** to automate the generation of business insights and decision-support reporting.
- Collaborated with 3+ cross-functional teams to integrate **Generative AI** into real-world decision-support workflows.

Business Data Analyst Intern

SmartBridge & Qlik

Apr 2024 – Jun 2024

Remote

- Conducted **statistical** and airline operations data analysis using **Python** and **Qlik Sense** to identify performance and stakeholder insights.

PROJECTS

Business Analytics: Airline Data Analysis using Qlik Sense [<https://sl1nk.com/h74vh7v>]

Business Analytics & Data Analytics

Apr 2024 – Jun 2024

Python, Qlik Sense

- Analyzed synthetic airline operations data using Qlik Sense to identify patterns, trends, and operational metrics.
- Developed **5+ interactive visualizations and KPI dashboards** by analyzing **6.5K+ airline records** to transform operational data into actionable insights and support data-driven decision-making.

AI-Powered Crop Disease Prediction System [<https://sl1nk.com/xaimlj6>]

Machine Learning & Computer Vision

Jan 2025 – Jan 2026

Python, CNN, Transfer Learning, GCP

- Developed a CNN-based deep learning model using Transfer Learning to detect plant diseases from leaf images.
- Performed data preprocessing, augmentation, hyperparameter tuning, and comparative evaluation of architectures.
- Designed scalable architecture for region-specific advisory integration; **IEEE RCSM 2025 research paper published** detailing methodology and performance metrics which achieved **98% accuracy** and improved model performance by **12%** over baseline models.

ACHIEVEMENTS & LEADERSHIP

- Core Technical Member**, Data Science Club, VIT – Hosted **3+ technical events**, including **DSCWoC** as the **Chief Organizing Lead**, contributing to community-driven learning and mentorship initiatives.
- Secured **9th place** among **267 national teams** in Health Hack Hackathon (VIT Bhopal in association with Johns Hopkins University, USA).
- IEEE RCSM 2025: First-author research** work on AI-driven crop disease detection, with the proposed approach achieving **98% model accuracy** and a **12% improvement** over baseline models.
- District-Level Runner-Up**, 24th National Children's Science Congress, under the Department of Science & Technology, on the theme of Sustainable Development.

EDUCATION

Vellore Institute of Technology

B.Tech in Computer Science and Engineering (AI & ML)

CGPA: **9.09**

Sep 2023 – May 2027

Delhi Public School, Ranchi (2022 - Full Time)

Intermediate (PCM + CS)

95.20%

Kairali School, Ranchi (2020 - Full Time)

Matriculation (AISSE)

97.80% (100/100 in Mathematics)

CERTIFICATIONS

- Amazon Machine Learning Summer School 2026
- Microsoft Certified: Fabric Analytics Engineer Associate (DP-600)
- Microsoft Certified: Fabric Data Engineer Associate (DP-700)
